

Topic Planner - Year 6 - Summer Term 2026

English

Reading and writing opportunities based around Pig Heart Boy including:

Persuasive writing (Pig Heart Boy)
A piece of writing linked to our Year 6 production.

Other English focuses:

Revision of KS2 grammar
Phonics, Spelling strategies, rules and patterns
Handwriting
Editing

Maths

Mental Maths strategies

Regular revisiting of all arithmetic knowledge accumulated over the year.

We will be providing our children with opportunities to apply the year six maths learning in a variety of contexts.

We will continue to practise our mental maths skills and strategies to support children with these key skills in the transition to secondary school.

Year Six Transition

We will be talking about Secondary School regularly. Topics will include, but are not limited to:

Self-organisation
Making new friends
Making a first impression
Finding your way around and getting lost
Tying a tie!

Production

We will be improving social skills, cooperation, resilience, compromise and patience to present you all with a live version of our production before the end of term.

We are so excited to share this with you all.

Key Texts:

Pig Heart Boy

The Unknown Within

Spanish:

This term we will be focussing on Healthy Eating and life in the Spanish world. We are looking forward to improving our Spanish language.

Music

Using our voices including composition, and practising of our production songs in preparation for performance

PE

Rounders
Sports Day Practice

PSHCE

Revisiting growing and changing during puberty
Extending our knowledge of human lifecycles
Relationships, Health and Sex Education
Changing relationships
Transition support

Computing

Coding Variables (Scratch) We will explore the concept of variables in programming.
3D Modelling (Tinkercad) Pupils will use Tinkercad software to produce 3D models.

Art - Graffiti

Evaluating the work of other artists, experimenting with design, colour merging, exploring alphabetical fonts

Science -

Circulatory System

The functions and working of the heart
The functions and working of the lungs
How nutrients are transported around the body
The impact of exercise, diet and drugs on the human body.

We will also include investigations in the topics we have already covered this year, thinking about 'working scientifically'.

Outdoor Learning Opportunities

Practising for our production
Outdoor Learning

RE

An exploration of the terms 'faith' and 'belief'. Faith in the local community.

DT - food and nutrition

Designing, preparing and making food suitable for picnics
